MEDITOLOGY SERVICES

LEADERS IN HEALTHCARE SECURITY & PRIVACY

MED·I·TOL·O·GY

me-di-tä-lə-jē

A methodology for achieving successful results with healthcare IT by balancing risk management with an optimal implementation approach.

Meditology Services is a top-ranked provider of information risk management, cybersecurity, privacy, and regulatory compliance consulting services exclusively for healthcare organizations.

We've conducted thousands of engagements for a wide variety of healthcare organizations ranging in size from small individual medical practices to large, complex national healthcare providers, payors, and Business Associates. Our extensive experience with strategic, operational, and technical elements of healthcare security programs uniquely positions us to truly understand the challenges you face every day.

Our subject matter expertise in the healthcare regulatory environment allows us to act as advisors to Office for Civil Rights (OCR), the U.S. Department of Health and Human Services (HHS), and Office of the National Coordinator for Health Information Technology (ONC) on information security, privacy, and HIPAA compliance matters.

Our leadership team consists of CISOs and Privacy Officers with extensive experience in healthcare security and privacy. Security certifications held by Meditology associates include CISSP, CISA, HCISPP, CIPP, OSCP, PCIP, CPHIMS, CPISM, GSEC, CCNA and HITRUST.

We service hundreds of healthcare clients coast-to-coast and maintain offices in Atlanta, Philadelphia, Nashville, Denver, and San Diego.
