New to Meditology Services? Allow us to fill you in.

Meditology is a best-in-class cybersecurity consulting and certification firm exclusively serving the healthcare industry. Our extensive knowledge of healthcare's regulatory, operational, clinical, and technical challenges uniquely positions us to address your cybersecurity and compliance requirements. Meditology disrupts the status quo with a differentiated client experience that is highly responsive, deeply collaborative, and focused on results.

"Meditology has been a trusted consulting partner of mine for many years. The RITHM bundle of services gives us tools and expertise that strengthen our information security posture without compromising our technology budget. The security coverage we get from RITHM provides great value to North Memorial."

Brad Newton, Chief Information Officer
North Memorial Health
